ANNEXURE - I

FIELD WORK

Mere theoretical knowledge does not make one a professional. Therefore, a distinctive feature of the instructional programs in Social Work is the emphasis laid on Field Work as an integral part of the total curriculum. The knowledge gathered in the class room is applied in the field under the effective supervision of teachers as well as agency to gain skills and technique. The Field Work program is planned in such a manner to provide an orderly sequence of learning.

Field work in the First Semester includes observation visit and concurrent field work leading to an awareness of the general functioning and nature of various welfare agencies. The students are then placed in agencies. In the Second Semester the students are reshuffled in order to familiarize to different settings. During the Third Semester and Fourth Semester students will be placed based on their specialization. Those who opt Human Resources Management will undergo specialized training in Industrial Settings. Those who opt for Medical and Psychiatry will be placed in Hospital settings. Those who opt for Community Development will work with NGO's.
